

Afarand Scholarly Publishing Institute
IJWPH Authors Commitment Form

Commitment to professional ethics & Assignment of the publishing rights

We, the authors of the article entitled "**Effect of Tannic Acid on Apoptosis in the Testes of Mice Exposed to Mobile Phone Electromagnetic Waves**"

with.....code, approve to send this article to Iranian Journal of War & Public Health (IJWPH) and declare that **this article is not under revision in any other scholarly journals at the time of submission to IJWPH and will not be sent to any other scholarly journal during the revision at IJWPH until the definite conclusion by IJWPH.**

We, the authors, with full liberty and awareness, assign all the rights of publishing this article (not of the content) to IJWPH and the journal is free completely to publish this article in any format (print, online, CD, indexing in databases and etc.) and use the potential financial benefits of publication. This right is just negated by rejection of the article in IJWPH or **withdrawing the authors from publishing it before the final acceptance.**

Introducing the authors, their order of appearance and their contribution

We, the authors (names and orders of appearance are as the below table), by awareness of the non-changeability of the names, orders of appearance and information of authors (no authors can be added or removed at all) declare that we all have contributed in producing this article (doing the researches and writing the article) and no names have been added without having an effective role to the article. From the following authors, the row Nois introduced as the correspondent author whose name will come as this on the published article. Corresponding author Email:
